NEW BLUE SKY LAW IS EXPLAINED BY COMMISSIONER

Measure Becomes Effective Friday—Relates to Co-operative Companies

(Special to Daily Press)

SACRAMENTO, July 27.—Commissioner of Corporations E. C. Bellows in a statement issued today draws attention to the changes made in the Corporate Securities Act—otherwise known as the Blue Sky Law—by the recent Legislature, and which will go into effect Friday, July 29th. The statement is issued especially for the benefit of the non-profit co-operative companies, which propose to sell or issue membership certificates or other securities.

Embodied in the statement also is information for the benefit of those proposing to offer pro-organization subscriptions. The commissioner's announcement is in part as follows:

Under Chapter 658, Statutes of 1921, it becomes necessary for non-profit co-operative companies to apply to and receive from the Commissioner of Corporations permission to sell and issue membership certificates or other securities. Heretofore these companies have been exempt from the provisions of the Act.

Another, and important change, allows domestic corporations to take pre-incorporation subscriptions. In the law, before being amended, no time was fixed for a company to incorporate after the subscriptions were taken. In some conspicuous instances, which have occurred in the past two years, promoters of fraudulent schemes have taken advantage of this provision to take pre-incorporation subscriptions without ever incorporating the company.

The change made by Chapter 658 provides that all subscriptions shall be deemed to have been taken upon the condition that the company shall be incorporated within ninety days thereafter, so that if the promoters do not take steps to incorporate within ninety days, the subscriber may bring suit to recover his money.

An important change also included, is the addition of a proviso exempting from the definition of "sale" an execution or delivery of a certificate evidencing a like aggregate par value of shares previously issued.

The purpose of this change is to enable companies to exchange new certificates where the change involves only a variation of the par value of the stock, the nature of the preferences, the change of the company's name, or the like. The amendment provides that the company is not required to make application and pay a fee to make such change.

BLACK SOX JUDGE DISMISSES TWO

CHICAGO, July 27. — The state's case in the "Black Sox" baseball scandal partly collapsed this afternoon, when Judge Hugo M. Friend had the cases of two of the defendants stricken off, and declared that if verdicts of guilty were brought in against two others the chances are he would not allow them to stand.

The cases against Ben and Louis Levi, alleged gamblers of Des Moines, Iowa, were nolle prossed by the state after the court had granted the motion of the defense to dismiss them.

Motions to dismiss the cases of "Buck" Weaver and "Happy" Felsch were denied, but Judge Friend said:

"There has been so little evidence presented against these two men that it is doubtful if I would allow a verdict of guilty to stand if the jury brought it in. But, as some evidence has been presented against them, I will not grant the motion of dismissal unless the state indicates it will nolle prosse."

The state made no indication that it would.

"GET-TOGETHER" OF MEN'S BIBLE CLASS

A "get-together" meeting of members of the Men's Bible class [illegible] First Methodist church has been arranged for Friday evening. [illegible] held in the social hall of the church at 7:45 o'clock, and Frank H. [illegible] who lately returned from a trip to Alaska, will give a brief description of his travels. The program will include other talks and music, and will be followed by a watermelon feast. A general invitation is extended to all men who are interested.

LATEST WORLD HAPPENINGS

(By International News Service)

NEW YORK, July 27.—Tex Rickard, promoter of the Dempsey-Carpentier fight, was fined $1000 today by Federal Judge Sheppard for bringing films of the fight from New Jersey to New York in violation of the federal statute which prohibits interstate traffic in prize fight films. F. C. Quimby, a picture producer, was similarly fined. Both pleaded guilty.

Chicago Grain Market

CHICAGO.—Prices of grain were down slightly this morning, but moved up later when locals took the buying side. July was unchanged to ¼ lower; September, ¼ lower, and December, ¼ higher. Buying strength was in evidence in corn, but prices failed to show any marked advance. December was about steady while September was unchanged to 1-8 lower. Trade in oats was small and prices 1-8 to 1-4 lower. Provisions showed independent strength and opened at gain of 7 to 10 cents over the previous close.

Ban for Orientals

VANCOUVER, B. C.—Seventy-five farmers, who live on the delta lands at the mouth of the Fraser river, have organized against the leasing of lands to Orientals, having signed an agreement which will be effective for five years.

Midget Huggins Hopeful

NEW YORK.—"It looks like a nip and tuck fight with the Indians all the way to the wire, but we hope to be able to beat them to it." So said Miller Huggins, midget manager of the New York Americans, as the Yanks dug in at the Polo Grounds today for a 15-game run against the western teams.

Bryan in Quod

WAUKEGAN, Ill.—William Jennings Bryan, speeding from Delevan, Wis., to Waukegan, to deliver a lecture, was arrested at Antioch, Ill., it was learned today. The Commoner told the police who he was, but it made no difference to the officer. The police judge shook hands with Bryan and did not impose a fine.

Tax Revision Paramount

WASHINGTON. — Tax revision ahead of all other legislation was the program which President Harding and a group of Republican senators agreed on at a dinner at the White House last night, it was disclosed today. The President held that tax revision is of paramount importance and that the country's demands for immediate relief must be heeded.

Army Surgeon Ends Life

PROVIDENCE, R. I.—The body of Capt. G. A. Lung, a surgeon in the United States navy, assigned to the naval war college at Newport, R. I., with a bullet from a .45 caliber revolver in the head, was found near Pepasquash, Bristol, R. I., by the keeper of his estate. Domestic affairs are given by friends as a probable reason for his act.

U. S. to Sell Supplies

WASHINGTON.—President Harding today signed an executive order dividing the country into nine areas for the sale of surplus supplies of the government, with a sales director in each area.

May Sutton Behind

NEW YORK.—Seven contenders remained in the round before the semi-final in the New York women's state tennis championship, at the Crescent Athletic club's courts in Brooklyn, today, when play was resumed. Two more, Mrs. May Sutton Bundy, of Los Angeles, and Mrs. Edward V. Lynch, were a round behind the field.

CITIZEN OF GLENDALE TELLS OF NOVEL INVENTION

R. E. Taylor Perfects Machine for Weaving Horse Hair Any Desired Length

By R. E. TAYLOR, M. E.

How often we have heard it said, "that clothes makes the man."

However, no matter how fine the quality of the cloth and lining used in the making of a suit of clothes, said suit must fit and be capable of keeping its shape to satisfy.

The tailor has recognized for ages that hair cloth interlining is one of the best mediums whereby this result may be obtained.

It is not generally known that a large percentage of the interlining made depends upon horse hair for its resiliency.

There is no other product either animal or vegetable which has a superior lasting property suitable for this purpose. This interlining is made in a loom, and its width is equal to the length of the hairs used, which averages about twenty inches. It is evident that only a small proportion of the horse hair obtained can be used for this purpose when fabricated into an interlining by the old process

The problem of being able to use the shorter lengths of horse hair and at the same time producing an interlining of adequate width was the natural thought which this situation presented. The old adage "necessity is the mother of invention" comes true once more.

The writer is an inventor and designer of a machine into which is fed short lengths of hair, the ends of which are joined, resulting in a continuous hair yarn. This joining process is accomplished by the use of a high speeed hollow spindle by which the ends of the hairs are bound together by a fine cotton thread running in a spiral direction. As one operator can control forty machines, the efficiency of the process is self-evident.

This hair yarn is then put on a bobbin and fed to the ordinary loom. The result is that hair cloth can now be made of any desirable width.

There is today being manufactured thousands of yards, sixty inches in width.

Other than the advantages of this process from a manufacturer's standpoint in being able to use short hairs of which there is a large supply, the tailor can have his hair cloth of any width desired, and the weaver can feel assured that the hairs will be held firmly in place due to the nature of the weave possible in this process.

'FREEDOM OF SEAS' DEMAND OF JAPAN

(By International News Service)

TOKIO, July 27.—Freedom of the seas will be one of the issues brought before the Washington disarmament and Far Eastern conference, if the ideas of the imperial navy department predominate in the Japanese delegation, according to the Asahi today.

With the dispatch of Japan's formal acceptance to Washington, government departments are at work preparing data and suggestions for the use of the Japanese delegates to the conference.

The Asahi states that the naval department in its draft of suggestions in addition to advocating "freedom of the seas," plainly says that alarm is felt here as a result of the fortification by the United States of Pacific bases.

This paper adds that this alarm is heightened by the fortification work being carried on, especially at Oahu, Hawaii, and Guam, by the United States.

NEW DEMAND SENT TO SOVIET RUSSIA

(By International News Service)

WASHINGTON, July 27. — The United States has made new demands upon soviet Russia for the immediate release of American citizens, who are now held prisoners in Russia, it was learned at the State Department today.

The note of this government voicing the demands has been dispatched to the American consular agent at Reval to be handed to the soviet representative there for communication to his government.

This is understood to be the first direct demand upon soviet Russia by this government for the release of the Americans, previous overtures having been carried on through neutral agencies.

The communication is understood to contain a stern warning to Russia that the soviet authorities can hold no hope for any American aid for the people of Russia who are reported to be suffering from starvation and disease, while American citizens are being held in prison under soviet orders.

There are now about eight Americans who are in jail in Russia and approximately 100 more who are being detained by the soviet authorities although they are not actually imprisoned.

The action of this government is understood to have followed a receipt of a letter from one of the American prisoners in Russia relating to the horrible conditions under which the prisoners are being held and making a dramatic appeal for stern measures by this nation to secure the liberty of the American prisoners.

GAME OF HIDE-AND-SEEK PLAYED BY ILLINOIS CHIEF

Governor Small Avoids Arrest By Leaving State Capital. Sheriff Makes Plea

SPRINGFIELD, Ill., July 27.—Three warrants for the arrest of Governor Len Small of Illinois were turned over today to Sheriff Henry Nester, of Sangamon county, for immediate service.

The "long arm of the law," by this action, began to reach out for Illinois' chief executive. It also marked the opening shot by the state in its battle to compel the governor to submit to the jurisdiction of the state criminal courts.

The 24 hours of "grace" allowed the governor for a "peaceful surrender" have expired, it was announced. The governor, last reported in Chicago, has announced his willingness to submit to arrest in that city, but local authorities desire to arrest him in the state capital.

The warrants reached Sheriff Mester at 9:30 o'clock. They were handed to him by Charles L. Koehn, clerk of the circuit court, at the direction of State's Attorney Mortimer. The procedure occurred in front of the courthouse while movie cameras were grinding away. On receipt of the warrants, Sheriff Mester immediately replied to Governor Small's telegraphic offer last night to surrender in Chicago. The sheriff's reply, addressed to Attorney Albert Fink, read:

"In reply to your telegram of last night, will say that it is unnecessary for Governor Small to go to the inconvenience or trouble of submitting himself to arrest in Chicago. He can advise me on his return this week and the process can be served here. Please wire day Governor Small will be in Springfield for this purpose."

The sheriff then announced he would take no action until he heard again from the governor.

Asked whether force would be used if the governor refused to submit to arrest in Springfield, the sheriff declared he did not expect such action on the part of the chief executive.

"I believe the governor will come down here late today or tomorrow and permit the process of the law to be carried out," he said.

"The next move is now up to the governor. He can avoid all inconvenience by coming to Springfield and surrendering to the law," was the only comment made by State's Attorney Mortimer.

The three warrants are the result of indictments charging the governor with conspiracy, a confidence game and embezzlement of state interest funds involving $2,500,000, while he was state treasurer.

RETURN FROM FIRST VISIT TO CATALINA

Prof. and Mrs. W. D. Root of 110 Olive street have returned from a week's outing at Catalina, where they had an exceedingly pleasant, restful time and caught some rock bass. It was the greater treat because their first visit to the island. They found quite a colony of Glendalians, particularly young people whom Mr. Root had known as students in the high school; for example, Joe Fishel, who has charge of the Catalina Country Club and golf links; Philip Wernette, employed in one of the hotels, and Lehman Crandall, who is with the Catalina Island Company; also Harry McClusky, who was there spending a vacation. The Roots took in all the special trips, including the tour of the island, and felt the time well spent.

Next Monday Mrs. Root returns to her work for the juvenile court in the Hall of Records, Los Angeles. Mr. Root, who is on the faculty of Franklin High, says the Los Angeles schools will not open this year until September 12.

The splendid $250,000 building which is to grace the Franklin campus and serve as administration building and auditorium and provide about twenty additional classrooms, has not yet been started. The professor expects it will not be available until a year hence.

W. C. T. U. Picnic

The Glendale Woman's Christian Temperance Union will hold their all-day picnic Friday, July 29, at the home of Mrs. Edith Dockeray, 723 South Louise street, near Windsor road. A fine program has been arranged for the afternoon, with Mrs. Julia D. Phelps, state vice president, as the principal speaker. All are invited.

VAUDEVILLE GIRLS WILL BE FEATURE OF EXPOSITION

Plan for Overhead Promenade Discussed by La Breque. Entries to Date

Perhaps the most unusual feature of the merchants' exposition to be held in Glendale from August 27 to September 3, will be the overhead promenade, which will be used for special displays of merchandise and for vaudeville entertainment.

H. Elmo La Breque, manager and director of the Pacific Coast Exposition company, who is conducting the merchants' exposition here, states that he got the idea of using an overhead promenade for display purposes from the Winter Garden in New York. The promenade there, according to Mr. La Breque, extends out over the orchestra seats, and is used by the chorus.

"I realized immediately," points out Mr. La Breque, "that such a promenade could be used to advantage in expositions for models and vaudeville entertainment, for it possesses an advantage over the stage proper in that it can be seen clearly by all."

A vaudeville troupe, which includes many pretty girls, is a permanent fixture of the exposition company. These girls will also be employed as models to display women's apparel.

At the meeting of the directors of the chamber of commerce yesterday, Secretary Rhoades reported that he had investigated the work of the exposition company in Santa Ana, Whittier and Pasadena, and found that business concerns of those cities were well pleased with the idea. Directors of the chamber assured R. M. Greathouse, publicity director of the exposition company, that they would lend their support to the exposition.

Plans are being made by Mr. Greathouse to have banners announcing the exposition hung across the streets. Posters will also call attention to some of the features of the exposition. According to Mr. La Breque, the booths for display of merchandise will be sold out within a short time. The desire to participate in the exposition appears to be keen among local merchants. The following have already secured space: Packer Automobile company, Studebaker cars; Nash Motors, Glendale Electric company, Jesse E. Smith, Fords; Neale & Gregg Hardware company, H. S Webb, dry goods and men's furnishings; Harry Moore, paints and signs; Glendale Creamery, Spohr Drug Store, Newton Electric company, Glendale Music company, C. E. McPeek, plumbing; Gilbert Brooks, millinery; Gordon's, ladies' wearing apparel; Carlsonia Facial Massage, Harry C. Smith, Sierra Club Beverages.

MRS. BROWN ARRIVES IN "LONDON TOWN"

Mrs. J. D. Brown of this city who went to New York to attend the International C. E. Convention and afterwards sailed for England has sent a cablegram to her son, Howard Brown, announcing her safe arrival in London. She has gone to visit her son Walter Brown who has lived in London for the past fourteen years and who has been appointed to carry on the relief work Herbert Hoover was compelled to relinquish. His mother had not seen him for fourteen years and had never seen her two English grandchildren. It is her first visit to England and it is expected she will realize a great deal of pleasure from it. She is likely to be away for six months or a year.

CHANGE OF EMPLOYES AT CHAFFEE STORE

There has been many changes in the Chaffee store, 108 South Brand in the last few days. Robert G. Freeman, manager for the past six years, was replaced by A. E. Belloli, who came here from the Hollywood store. Eudsley, meat cutter, quit last night and Lewis, in charge of the vegetable department, is also out, as well as his helper. Hereafter that department will be under the management of the grocery manager, as before. Newton McBride is the only one of the old clerks left.

Mr. Belloli will move his family to Glendale as soon as he can find a house. Mr. Freeman, who recently bought a nice home at 624 Alexander, will continue to live in Glendale.

Supt. White Returning

Superintendent of Schools Richardson D. White is expected back in Glendale Friday from the East, where he has been spending month's vacation. He represented the Glendale City Teachers' Club at the National Education Association convention, held early in July in Des Moines.

UNCLE SAM PLANS A FLEET OF SEA PANTHERS

Navy Department Now Busy With Order for "S-Boat" Type of Fighters

By T. N. SANDIFER,
I. N. S. Staff Correspondent

WASHINGTON, July 27.—America's submarine fleet is to be as powerful and efficient as that of any nation in the world.

Mighty first-class "sea panthers" are now in operation, and the Navy Department is planning the addition of thirty S-boats, the latest and most improved type of under-the-surface fighters.

"When these new craft are received and prepared for active work we will have a good submarine fleet." Secretary of the Navy Denby said today.

Persistent rumors have prevailed recently in Congress and in naval circles that the subsea fleet of the American Navy was "on the bum," but Secretary Denby's denial of these stories and his expressed desire to make the Navy's U-boat flotilla a formidable arm of the nation's first-line of defense has quieted some of the most aggressive of those who have attacked the department's policy and building programme.

Pleas for greater development of submarines were among the features of the recent discussion in Congress of the Navy Appropriation bill for the next fiscal year, and much of the criticism levelled at the Navy Department's subsea policy and the alleged poor condition of the submersible fleets was brought to a head in a resolution introduced in the Senate by Senator King (D.) of Utah, directing an investigation of American submarines by the Naval Affairs Committee. No action has been taken on the resolution since its introduction, and it is regarded as unlikely that the proposed investigation will be conducted.

Latest Flotilla in Pacific

One of the latest rumors concerning the condition of the submarine fleet had it that a number of U-boats were up at the Panama Canal and that they were of no use except as junk.

Secretary Denby declares that certain divisions operating in tropical waters have encountered difficulties due to the climate action on engines and gear and that experiments are now being conducted to eradicate these troubles.

A flotilla of the latest type of submarines made their way recently to the Pacific and are now operating in those waters.

High officials of the Navy Department dismiss most of these rumors as propaganda and go right along with their work of developing the under-sea flotilla, with the belief that this arm of the navy is to be "as good as the best."

GIRLS OF C. C. CLUB HAVE BIG MEETING

Members of the C. C. Club assembled as usual at the First Baptist church Tuesday evening for a meeting which proved unusually large and enthusiastic, about 60 covers being laid at the supper which was furnished by girls of the Glendale Presbyterian church. In the absence of Miss Maude Soper, the regular leader, the Bible study was conducted by Mrs. Howard Brown. There will be a special rally next Tuesday evening in honor of Miss Soper, who is returning this week from an outing at Camp Baldy.

Arizona Educator Here

Professor M. L. Gerton, wife and son Alfred from Tucson, Arizona, are visiting their cousin, Mrs. Roy Bennett at 217 East Chestnut street. Professor Gerton is superintendent of Escuela Indian Training School. They are very much enthused about Glendale and Professor Gerton is contemplating buying a home here where his family can spend summers.

Public Utility Record

Yesterday's changes of residence, as indicated by public service department records, were as follows: D. E. McDonald from 500 North Maryland to Los Angeles; A. L. Keller from 216 West Colorado to 424 Myrtle; C. H. Bliss from 421 West California to 805 East Wilson; Lee Folz from 805 East Wilson to 1741 Gardena; J. A. Nuttall from 408 West Broadway to 439 West Doran; Mr. Spencer from 313 West Harvard; Mrs. M. Rich to 138 South Isabel.

Installation of electric light meters were ordered in the following new houses: Those of C. W. Wilson, 1015 South Columbus; R. G. Burchfield, 439 West Doran; George T. Belong, 503 Lincoln avenue; H. E. Sohmer, 614 Salem; A. Holgate, 703 East Palmer.

HER LOVE FOR DEAD SISTER CAUSE OF MENTAL LAPSE

Marian Locke Restored to Her Los Angeles Home—Her Recovery Is Assured

The chief belief of P. G. Wells, deputy health officer of this city that he would be able to trace the friends of Marion Locke, who was brought to his office yesterday in a dazed condition, were realized.

As stated in the account published in the Glendale Daily Press yesterday, he recognized the young woman, who is about sixteen years of age, as a former childhood playmate in Los Angeles. He remembered that her brother, George Locke, had been employed in a Los Angeles laundry which he telephoned. He thus got into communication with the young man who came out and took his sister to the home of her mother, Mrs. E. F. Opperman, Fifty-second and San Pedro streets.

Before she left here Miss Locke had recovered her memory in some degree and Mr. Wells is confident that with good care she will be completely restored.

George Locke explained that his sister had never recovered from the shock she sustained in the death of an older sister, Sigrid Locke, to whom she was very deeply attached, and who had been like a second mother to her. In her present mental lapse she thinks her sister is still living and the explanation she gave her mother on her return was that she had been trying to find Sigrid.

Before she left home she and mother had a trivial quarrel and she had declared she was going out to look for work. When she failed to come back it was thought that she had gone to the home of a brother and no particular anxiety was felt.

MRS. CHASE'S PLANS FOR DRAMATIC WORK

Mrs. Raymond Chase, of 239 North Orange street, curator of the dramatic section of the Tuesday Afternoon club, also drama chairman of the district federation, will attend a meeting of the executive board, to be held in Los Angeles August 4, to formulate plans for the district work of the coming year.

Thus far no definite program for her section has been outlined, but Mrs. Chase has promised the program committee that it will provide the Christmas program for the club. It will also give another evening of one-act plays early in the year, probably in October, at one of the Glendale theaters, as a benefit for the clubhouse fund. The last one was such a success from both an artistic and financial standpoint that there has been a demand for more entertainment of the kind. Mrs. Chase is glad to give opportunity for the real talent in her section to be revealed to the community, and is also anxious to swell the fund and promote the building of a real home for the club.

One of the plays presented last spring was "Neighbors of Friendship Village," by Zona Gale. It made a great hit. Since then, the Nobel prize of $1000 for the best play of the year has been awarded to Miss Gale's "Lulu Bett." Mrs. Chase says it has made quite a sensation in New York and she is anxious to read it. There is a possibility that it will be one of the plays selected for the October entertainment. Miss Gale has given club programs in Glendale, and has personal friends here. Her home is in Wisconsin, but she usually spends the winter in California.

WEDDING BELLS FOR THEM IN THE FALL

Mr. and Mrs. S. E. Wright of 811 East Orange Grove avenue have announced the engagement of their daughter, Alice R. Wright to A. E. Harwood. The Wrights came to Glendale about three years ago from St. Louis, Mo. Mr. Wright is an old-time printer and newspaperman and he and his daughter, Alice, were in the employ of the Glendale Press for a time. Mr. Harwood is one of the linotype operators of the Glendale Press. The wedding date has not been definitely set, but will be some time during the coming fall.

I WOULDN'T HAVE BELIEVED THEM POSSIBLE

HATZ'S MONTH-END SALE IS ON!

You know, the last week of each month is devoted to a sensational month-end sale at Hatz's, when there are special prices and most unusual values in ready-to-wear and kindred lines! At these sales, all broken assortments are re-priced—marked down to a new low level! But just wait till I tell you of some of their special features this week! Imagine dainty white voile and organdie waists for only $2.95, and white wash skirts of gabardine (the usual $4.50 and $5.00 numbers) at $3.95! And the "super feature" of this sale is a grand clearance of all organdie dresses! They're just the prettiest models you've ever laid your eyes on, of imported permanent finish organdie in all of the new popular shades, such as geranium, nile, orchid, rose and corn! And fashioned in just the most becoming styles! These organdies are dresses that formerly were selling at $15.00, $17.50 and $19.50, and are now reduced to $12.50! Don't miss this opportunity to complete your summer wardrobe so reasonably, for no summer outfit is complete without at least one fetching organdie frock! Hatz's Shop at 132 South Brand boulevard is recognized for its superiority in correct women's wear!

* * *

Investors generally, who appreciate the value of reliable investment counsel growing out of extended experience and specialized knowledge, rely solely upon the advice of their banker!

* * *

DELIGHTFUL NEW MILLINERY MODES

A GLIMPSE OF LATE SUMMER is given us in the display of charmingly fashioned hats of white taffeta at the YARBROUGH HAT SHOP, of 108 West Broadway! Dame Fashion has decreed that white taffeta is to be THE fabric for the late summer chapeaux—and you'll simply love the fascinating models which Mrs. Yarbrough is showing! Each one is a pattern hat in itself! Perhaps that new organdie frock will call for an enhancing leghorn—then you will also find just the thing in a wonderfully wrought straw at the Yarbrough Hat Shop. Yarbrough hats seem to have that certain stylishness and individuality all their own, don't they?

* * *

When using decorated furniture, whether inlaid or painted, the main point to be borne in mind is this—the applied ornament must not start out from the surface of the wood and challenge attention.

AN ENCHANTED HOUR!

THEY WERE PLAYING THE MOST FASCINATING FOX-TROT as I was passing the ARTISTIC BRUNSWICK SHOPPE at 126 South Brand boulevard, so in I marched! The selection that first captivated me proved to be the new Brunswick record of "Mon Homme" (My Man), that incomparable new European fox-trot played by the Knickerbocker Orchestra! "Siren of a Southern Sea," the reverse side, is every bit as enchanting as its name would imply—and it's played by the Isham Jones Orchestra as only they could play it! And, what do you think? "Ain't We Got Fun?" that popular new song that has been so hard to get in the vocal, is now out on a Brunswick record, sung by the Harmonizers' Guartet. You'll enjoy its coupling, too, "Down on the Farm," also sung by the Harmonizers! Of course, if you prefer the dance recording of "Ain't We Got Fun?" you'll find that at the Brunswick Shoppe, too, played by Bennie Krueger's Orchestra, and coupled with "Dangerous Blues," another dandy fox-trot! And—a RAGTIME PIANO SOLO! Yes, Zez Confrey playing his own compositions—"Poor Buttermilk" and "You Tell 'Em, Ivories," is simply irresistible!

Have you heard Theo Karle, the young tenor who is being heralded as a second McCormack, singing that most beautiful of all concert selections, Bartlett's "DREAM"? The other side, "UNTIL," is sung with such depth of feeling as only Theo Karle can sing. When you have heard this Brunswick record then you'll thoroughly understand how Theo Karle found his way into the hearts of all music-lovers, and why he is heralded as THE American Tenor of the Age—for he is an American, born and reared, you know!

FRUIT TURNOVERS

Make a nice puff paste; roll it out the usual thickness, as for pies; then cut it into circular pieces about the size of a small tea saucer; pile the fruit on half of the paste, sprinkle over some sugar, wet the edges and turn the paste over. Press the edges together, ornament them and brush the turnovers over with, the white of an egg; sprinkle over with sifted sugar and bake on tins in a brisk oven for about 20 minutes. Instead of putting the fruit in raw, it may be boiled down with a little sugar first and then enclosed in the crust; or jam of any kind may be substituted for fresh fruit.

* * *

YOUR CHECK YOUR RECEIPT!

THE MOST SUCCESSFUL businessmen pay everything, even to their personal accounts, by check! Why? Because then they are assured of a receipt— by this means they are enabled to account accurately for their most minute expenditures, and it is a well-known fact that until we commence to watch the pennies we can never accumulate any amount of money. Then there is another advantage in your establishing a checking account at the FIRST NATIONAL BANK of GLENDALE! Have you not found it true that when you are carrying large sums of money with you on your shopping trips you are bound to spend that much more than if you were making some sort of notation of what you were spending? I have found it true time and again, for it is only human that, the more we have the more we spend. And you will save something more than money if you have your checking and savings accounts at the First National Bank! You'll save your valuable time and energy! For, by doing your banking at a location which is most convenient to you and to the business center of the town, where you wish to do your shopping, means a great many steps saved and time during the day, when your time is most valuable. The First National Bank of Glendale is centrally located—at the corner of South Brand boulevard and East Broadway. Try handling your income through a checking account at the First National Bank for one month, and you'll be surprised at the money you'll save!

* * *

PLEASURABLE COOKING WITHIN EVERYONE'S MEANS!

At the GLENDALE ELECTRIC COMPANY of 132 North Brand boulevard, the prices on all table appliances such as cosy chafing dishes, handy electric grills and toasters, and charmingly distinctive electric coffee percolators, are now so reasonable as to be within everyone's means! In the summertime a few such delightful appliances make cooking much more pleasant, for it lessens to such a great extent the fussing over hot stoves. But with a lovely silver-plated chafing dish, a handsome addition to any table, and a beautiful silver coffee percolator, it soon becomes a pleasure to prepare and serve summer dinners! And, in winter, too, they are more than useful, for instead of having to prepare refreshments for the guests in a cold kitchen, lo! here's the chafing dish and percolator—with the toast made on the electric toaster—and everything's ready in a twinkling of an eye!

* * *

COME WITH ME! DON'T LOSE ANOTHER SECOND!

Put on your "old gray bonnet" and hurry right down to FISHER'S VARIETY STORE at 212 East Broadway, where that phenomenal Eight-Day Sale is in progress! You haven't many days left, for the sale opened last Friday (July 22), and will close next Saturday night, the 30th! It's simply marvelous, the money you can save on cooking utensils, all sorts and kinds of household necessities and—well, really, I can't commence to describe to you the innumerable specials which are being offered, for, in fact, 'most everything in the store is marked down! Everyone is talking about Fisher's unusual sale! Remember—there are only three days more, now.

* * *

OF PARTICULAR INTEREST!

NOW IS THE TIME! Your semi-annual opportunity to secure in one purchase the shirts you'll need for the entire year! And at a very material saving! The Manhattan Shirt Company has authorized a special sale of Manhattan shirts for a limited time! It comes just twice a year—but then they DO offer REAL values! And this season is the best yet! At ROBINSON'S MEN'S SHOP of 116 South Brand boulevard, you can get those wonderful $3.00 Manhattan shirts and a big lot of Wilson Bros. imported and domestic madras, cords and checks—the kind of shirts no man can have too many of—for $2.15! $2.65 will buy shirts that were made to sell at $3.50! And during this extraordinary sale, $4.00 and $4.50 shirts may be purchased for $3.15! And your choice of the best Manhattan $5.00 to $6.00 shirts you may buy for $3.85!

Of course, it goes without saying that Robinson's stock is all new, for it was only recently that Mr. Robinson opened his attractive shop on Brand boulevard. And there are also no wartime dyes—but every shirt is fully guaranteed not to fade from washing! Can any man, who values his personal appearance, afford to pass up this opportunity? They're not SALE shirts but the usual master-tailored shirts upon which the Manhattan Shirt Company has built their excellent reputation, and just the kind of shirts you'd expect to find at Robinson's Men's Shop!

* * *

A MIGHTY SURPRISE!

HAVE YOU PRICED those luxuriant Brussels, Velvet and Axminster rugs at the ENTERPRISE FURNITURE CO., of 216 East Broadway? Well, you'll be mightily surprised, for it doesn't seem possible that such excellent values could be offered at such remarkably low prices! And overstuffed, all-leather rockers, too—just the chair to give your living-room that air of cosy hospitality which is so much to be desired—and tables, everything to make your home comfortable, is to be found at the new store which has but recently been opened in Glendale—the Enterprise Furniture Company!

* * *

STAIN-KILLER!

WHAT NEXT? Isn't this truly an age of miracles? There is hardly anything now that can't be accomplished successfully. Yes, you've guessed right. I have a surprise up my sleeve! L. H. ALLISON, of 105 West Broadway, has a Stain-Killer that is positively miraculous! If you have a bad stain on your wall, instead of retinting the whole room, and perhaps having to use an unattractive color to cover the damage, just drop in to see Mr. Allison and let him tell you of his wonderful Stain-Killer. It will obliterate almost any kind of a stain imaginable from the walls. Just think of the saving—for so often a room must be entirely re-tinted just because of a few unsightly stains that may now be satisfactorily removed! Mr. Allison always has some of his Stain-Killer on hand, or if he hasn't, it won't take him long to make up enough of it for you!

Allison's also carries a full line of delightful wallpapers in all the very newest designs and shades. In short, you'll find 'most anything you need at Allison's, from Stain-Killer to Auto Top Dressings! Drop in and see for yourself sometime!

* * *

YOUR FLOORS ARE ALL-IMPORTANT

THERE IS NOTHING YOU CAN DO to offset the effect of ugly floors in your home. THE GLENDALE HARDWOOD FLOORING COMPANY of 304 East Broadway will take up the old wooden boards and lay a modern and attractive flooring of hardwood that may be easily kept clean and polished. And you may be sure of the very best quality and the most reasonable prices when you are dealing with the Glendale Hardwood Flooring Company!

* * *

HERE'S YOUR DREAM HOUSE—all ready-made! An ideal two-story, eight-room house on a large lot with 120-foot frontage! And just the kind of a living-room that spells H-O-M-E—a large, comfortable room extending across the front of the house, with plenty of windows, hardwood floors, and all of the cosy little built-in features! Yes, it's really a ready-made home—just right for the average family, for there's room enough to be comfortable. And it's such an attractive place from the outside, a large lawn with a wonderful sprinkling system, and, in the back, a double garage! Imagine being able to buy just what you've been looking for in the way of a home, for only $7800—and on easy terms, too! That is the price which J. F. STANFORD, of 112½ South Brand boulevard, is asking for this cosy place!

UNITED STATES HAS MORE GOLD THAN IS NEEDED

Result Is That Serious Trade Situations Confront Us and Must Be Faced

By J. BART CAMPBELL,
International News Service Staff Correspondent

WASHINGTON, July 27.—The United States is in the peculiar position today of accumulating more gold than it needs, of possessing half of the world's available gold, while facing the incontrovertible fact that it cannot live and prosper alone.

Ordinarily the man whose pockets are filled with gold is supposed to be independent of the rest of the world. Uncle Sam, with his pockets bulging with gold, finds himself far from being independent economically and financially of the rest of the world.

It is this strange situation that is giving the American Government, from the President and the Secretary of the Treasury to the Republican leaders of Congress, such knotty problems to solve as the stabilization of commerce and the readjustment of the tariff, taxation and the foreign debt.

The United States is receiving gold in such large quantities as to threaten it with a gold inflation, it was pointed out by D. R. Crissinger, the Comptroller of the Currency, while there is not a satisfactory compensating movement of our products to the countries which are sending us the gold.

And yet it is as necessary for us to sell as for others to buy, as necessary for us to join in extending credits to those who would buy as for them to secure credits.

Freedom of Exchange Lacking

Members of the Senate Finance Committee realize, as do Secretary of the Treasury Mellon and Comptroller Crissinger, to what extent the prosperity and the rehabilitation of the American people must depend upon the restoration of the world as a whole.

"Frozen credits and adverse foreign exchange rates are also important factors of the situation bound up with the Administration's efforts toward refunding some of the principal and interest of the $11,000,000,000 due us from our foreign debtors.

"There is not that freedom of commercial interchange which in normal times is the great equalizer and leveler," Comptroller Crissinger said. "The situation demands attention lest the gold standard be gravely impaired. After the Civil War our own currency was impaired by reason of paper inflation. Other countries had drawn from us much of our gold and had thereby been able to establish the metal basis of their own currencies more firmly while our own had lost that foundation.

"It was obviously sound policy for us, then, to deflate, to lift our own to the lever of other currency. We did resume specie payments; we did it so soon after the Civil War, and despite the existence of so great a debt, that it constituted a striking demonstration of our economic capacity.

Sagacity of Aloofness Questioned

"But the situation is now reversed. We are not only the great creditor nation but we have put the reverse on the 'Crime of '73' by making ourselves well-nigh the monopolists of the world available gold.

"The question is, what can we do about it? This brings us back to considerations of money, of foreign exchange, of international trade relations. We need to increase our exports, but in our new quality as a great creditor nation we find it more difficult than ever to export more than we import. The difficulty is increased by the fact that our money is the best in the world, the most expensive. On a gold basis five Italian lira would buy a dollar's worth of goods from us. But the Italian lira is so depreciated that it takes more than twenty now to buy a dollar.

"It will be well for us to consider what our position in international trade would be, if because of our aloofness from other nations they should unite without us and give special inducement and incentive to international trade with us left out"

Glendale Acres

Glenview Acres, W. L. Truitt's beautiful hillside tract, coming on Sixth street and Vine avenue, Grand View district, is becoming quite popular with the buying public, says the owner. One man who went to see the tract bought a lot twenty minutes after he arrived. The view is grand, taking in Glendale, Burbank, Los Angeles, Griffith Park and the farstretching San Fernando Valley. Mr. Truitt says he positively believes with its wealth of growing crops, that every lot will double in value within five years.

Services for S. B. Warner

Funeral services for the late Rev. S. B. Warner will be held tomorrow afternoon at 2 o'clock, at the Jewel City parlors, and will be conducted by Rev. C. M. Crist.

July 10, 1921

Dear Friend:

We have just returned to Glendale after an absence of nearly three years. Have visited most of the popular resorts in the various states, but have found no place to equal Glendale, and one thing we have never had a good cup of coffee since we left Glendale until we got back. You know we think there is no coffee like Booth's Better-Blend Coffee.

Will tell you more when I see you.

With love,
GERTRUDE

FARMERS' RELIEF IS IMPORTANT ISSUE FOR CONGRESS

Immediate and Effective Plan Is Object of Inquiry Now in Progress

(By International News Service)

WASHINGTON, July 27.— As the special joint commission of the senate and house swings into aggressive action in its 90-day investigation of the farming industry of the United States, some 6,000,000 Americans who raise the nation's food and who produce most of its clothing are waking up to the fact that the present congress, with sturdy "agrarian blocs" in both branches, seems to be more favorably inclined toward agricultural legislation than any that has preceded it during the last decade.

The pending investigation, which was ordered by the passage of a resolution offered by Senator Lenroot (R.) of Wisconsin, got under way on July 11, and is to remain in continuous session in Washington and elsewhere for the next three months.

Immediate and effective relief for the agricultural industry is the purpose of the inquiry; but, according to Chairman Anderson's expressed hope, the investigation is to be used to carry on the work already launched by many members of congress in the introduction of bills designed to aid agriculture and not to block pending agricultural legislation.

Aim to Relieve Distress

Should congress continue to sit through the summer and early fall, there is little doubt in the minds of those who are following the farm legislation that the country will be greatly benefited by the passage of a number of bills designed to relieve the distressed situation from which the farmers are struggling to extricate themselves.

The Lenroot resolution directing the inquiry outlines the subjects to be investigated as follows:

1. Causes of the present condition of agriculture.
2. Causes of the difference between the prices of agricultural products paid to the producer and the ultimate cost to the consumer.
3. Comparative condition of industries other than agriculture.
4. Relation of prices of commodities other than agricultural products to such products.
5. Banking and financial resources and credits of the country, especially as affecting farm credits.
6. Marketing and transportation facilities of the country.

OCCIDENTAL'S HEAD WILL ARRIVE MONDAY

With the registration at Occidental college mounting up to greater proportions than has ever been attained before, Dr. Remsen Dubois Bird, new president of the Eagle Rock institution, will arrive in Los Angeles next Monday to take over the duties of his office.

A house will be erected immediately on the campus, at a cost of $20,000, to be the home of Dr. Bird. Within the next week a physical training building for women will also be under construction.

Rev. Smart Better

Rev. A. B. Smart, who underwent quite a severe operation recently, is still at the Glendale sanitarium, and likely to be there for two weeks to come, but is gaining slowly and steadily and his physician hopes to get him up for the first time next Sunday.

"Bud" Is Improving

"Bud" Armstrong, who recently opened up a quick meal and soft drink establishment on South Brand, and who underwent an operation about ten days ago, is still at the Golden Gate hospital, with prospects of coming home in a week or ten days.

Shell pink and orchid organdie make a delightful combination.

MRS. L. HOTELING IS AGAIN INJURED IN FALL

Mr. and Mrs. W. H. La Fountain, of 203 West Acacia street and their grandchildren, William and Martha La Fountain, who went to Redondo last week for a vacation outing, were recalled to Glendale by a serious accident which befell Mrs. L. Hoteling, mother of Mrs. La Fountain. About a year and a half ago she fell and broke her hip but recuperated so she was able to get about with comparative comfort. During the absence of the La Fountains she fell again and this time injured her spine.

MANAGER OF METRO. ASSOCIATION HERE

S. L. Roland Ready to Meet With Investors at 113 West Broadway

S. L. Roland, general manager of the Southern California Metropolitan Association for the next two weeks will be in Glendale at the branch which the association has established in this city at 113 West Broadway, to meet citizens who want to inquire into its mode of doing business, into the advantages of its investment proposition, or its method of making loans.

Speaking of Glendale as a lodestone, Mr. Roland says scarcely a day passes without a visit from someone living outside of Glendale who is anxious to come here and build a home and who wants to find out how to negotiate a loan. Said he, "We cannot begin to take care of the applications we have, and the majority of Glendalians have no realization of the development that is going on in their city.

"Eight new houses financed through our association have been built here since we opened our offices and out of the eight, three are new families who have never lived in Glendale before. Every new family brings patronage for every industry and business enterprise in the city. Every family is an asset."

Mr. Roland lives in what he considers the most beautiful part of Glendale, Verdugo Woodlands, and is very enthusiastic over the assured future of that section.

New C. of C. Members

Three representatives of business firms in Glendale have been voted into membership of the Chamber of Commerce, yesterday. The group includes: Louis Robman, Glendale Public Marget; W. V. Mullikin, Mullikin Studio, 206 East Broadway; Harry Wilcox, Quality Delicatessen, 135 North Brand.

Peach Crop Fails

Canning operations in the San Fernando valley are very much less than usual, owing to the almost total failure of the peach crop in the Van Nuys and other fruit sections; the tomato crop is greatly restricted this year also, and berries are not plentiful.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back Its Beautiful Luster at Once

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

FEDERAL FARM LOAN BONDS SELL SLOWLY

(By International News Service)

WASHINGTON, July 27.—The last issue of the Federal Farm Loan bonds, amounting to $40,000,000, sold very slowly, and efforts have been made to pay 5½ per cent interest instead of 5 per cent on the bonds, at the same time loaning the money at the prevailing rate of 6 per cent. This measure has been approved by Secretary of the Treasury Mellon, who would, however, limit the application of the advanced rate to the next four years. The bill has passed the Senate and is now pending in the House Comittee on Banking and Currency.

Farmers are also interested in the bill, which would increase the maximum loan of the Fderal Farm Loan Banks from $10,000 to $25,000.

The action of the Administration in encouraging private bankers to form a pool for the relief of livestock men in the West has resulted in slowing up action on two bills in which farmers are interested. They provide for the loaning of $50,000,000 to remove the stringency in "cattle paper." The cattle raisers are said to be watching the formation of this pool with hope that it will function in the near future. Should it not materialize efforts upon their part will be renewed to have the Government come to the aid of distressed "cowmen" in the West.

BIRTHDAY DINNER ON "RIM OF THE WORLD"

A birthday dinner of an unique and delightful character was held in honor of Robert Kenneth Crist, son of Dr. and Mrs. C. M. Crist, at their summer home, "Rim Ridge," on the Rim of the World, in the San Bernardino mountains, last Sunday.

The dinner menu was complete with fried chicken, a birthday cake of 19 candles, and ice cream.

The guests included Mr. and Mrs. C. W. Ingledue, Mr. and Mrs. C. H. Starkey and their son, Robert; Mrs. Sarah Crist, Dr. and Mrs. C. M. Crist and Robert Kenneth Crist.

On Monday the party motored through the San Bernardino mountains to Little Bear lake, Pine Crest and Strawberry peak, where, 6159 feet above sea level, they were able to look out over the desert, across the mountains and out to sea. Dr. Crist is pastor of the First Methodist church of Glendale.

PEAR PIES TO BE FEATURED IN MENU

Farm Advisor Hodgson of Los Angeles county will make the chief address at the annual Pear day celebration, to be held August 6 at Little Rock, far-famed for its Bartlett pears.

It is reported that this year's crop has been a bumper one in spite of the late spring and summer frosts.

Pear pie will be the headliner on a noon luncheon, to be served to the public at the celebration. President Sweet, of the California Pear Growers' association, and J. L. Nagle, president of the California Fruit exchange, are also on the program as speakers.

Now He Knows

(By International News Service)

KANSAS CITY, Mo., July 26.—"Gimme Gas" shouted C. Culbert as he drove his Ford up to a filling station here.

"How much?" asked the station attendant.

"I'll see," said Culbert lighting a match and peering into his gas tank.

"The flivver I used to own was a pip—the best little car you ever saw," Culbert told a prospective purchaser of the wreckage for $100.

ELOQUENT TRIBUTE TO GRAND ARMY OF REPUBLIC

By GEORGE BYRON LOUD,
Past Dept. Commander Dept. of New York G. A. R.

The fifty-sixth year of the Grand Army of the Republic finds its remnant host—the now weak, unsteady flank of the great Army and Navy that ever battled for the Nation's life and honor—still surrounding their camp fires, feeding the fast dying embers with the love and veneration held for each other; this love deepening as the roll calls shorten and soon to end with the expiring breath of the last tired body of them all.

Unique, distinct, exclusive, cloaked in its own individuality, recognized leader as the most practical object lesson in patriotic consecration, giant among other organizations in swaying the minds of legislators, it became in its first quarter of a century the impelling forces in our country's onward march to the highest goal of material, national achievement and is still, in its fifty-sixth year, a forceful factor in American civics.

Conceived in a sea of steel and fire, its first heart throb following speedily the victory won by the greatest gift a man could offer, it lifted its head for the first time out of and above the stormy waves of Reconstruction Days. Its day has been a radiance of glorified light—a great sun among lesser great orbs in its exemplification of fraternal comradeship.

But even such a day must have its twilight, its golden stairway to the restful quiet of the night.

From lyric youth to the tragic grandeur of its old age, the borders of its way have been fringed with resplendent light, and the same unflinching spirit that kept Old Glory aloft amid the perils of a four-years' fight to tear it asunder, is still displayed in the constant and unwavering guardianship of the principles symbolized in our Flag.

The Grand Army of the Republic in making that Flag "the hope of the world" has written a living epic of action heroic in ideals of exalted patriotism.

The sunset of the Grand Army of the Republic approaches. The evening shadows deepen. The twilight will come and fade quickly into night. Meanwhile the lingering few are assured the gratitude of human hearts, the homage of human devotion, the priceless legacy of heroic achievement—a destiny accomplished, a posterity edified, a country saved.

The passing of the Grand Army of the Republic will hold all the beauty of a perfect day, sinking with rosy golden glow into the arm of an evening whose sweetest gift will be to wrap it in the mantle of a star-studded night.

DR. L. A. JOHNSON BREAKS HIS WRIST

Dr. L. A. Johnson, assistant to Dr. C. L. Marlenee of this city, had the misfortune to break two bones in his right wrist yesterday while cranking his Ford. Dr. Marlenee predicts that his assistant will now become a fan for the self-starter, although there is, according to Dr. Marlenee, a "safety first" method, which he practiced satisfactorily for several years. His directions are to pull up instead of spinning the crank, and to keep the thumb turned in so it will not be caught when the machine "kicks."

New Home in Verdugo

Mr. Blackstone, who is connected with Bullock's, of Los Angeles, is building a seven-room home in Verdugo Woodlands.

Celestial Gas Cloud

(By International News Service)

LONDON.—The existence of an inconceivably vast object in the heavens has just been demonstrated by a Dutch scientist, Dr. A. Pannekock.

Its mass, he says, is twenty thousand million times greater than that of the sun itself, and it can be described as a celestial gas or dust cloud.

Dr. A. C. D. Crommelin, who contributes a paper on the subject to "Nature," says the discovery "seems to make it desirable to rediscuss the dynamics of the solar system." According to Dr. Pannekock's estimates, this huge body is 140,000,000,000,000 miles in length and twice that distance away from the solar system. It is situated in the constellation of Taurus, and shows as a dark area to the right of Orion's belt.

Dr. Pannekock works on the assumption that it is a gigantic cloud of dark gas, and his figures as to its mass are greater than many estimates of the combined mass of the whole universe itself.

Another scientist, Professor De Sitter, suggests that the body may consist of dust instead of gas, in which case the mass would be much less. Viewed from the earth the dark body occupies one-third of a line drawn down from the Pole Star to the sky line.

GLENDALIANS PLAN BEACH BUNGALOW

Dr. and Mrs. C. A. Brandstater have been experimenting to determine whether they like the mountains or the sea best for their Summer outings. They recently spent two weeks in Lytle Creek Canyon to compare the mountains and beach, and though they had a very good time and found it a lovely situation, have decided it is salt water for them. Therefore, they have purchased a lot at Manhattan Beach and will soon build a bungalow upon it in which to spend week-ends.

During the past week they have been entertaining friends from New Zealand. Clarence Amyes, of Christ Church was their week-end visitor, and this week Miss MacDonald, of Wellington is with them. Both are touring the United States and are very much pleased with what they have seen thus far, particularly California. Miss MacDonald finds Glendale a little warm, however, by comparison with Wellington, which is a seaport.

Oliver and Glenn Brandstater, who were very ambitious to earn money after school closed, and who also wanted to camp, went up to Fresno county and have been working in the vineyards ever since and camping. Their letters are most enthusiastic and it is evident they have not been disappointed. Kenneth Brandstater, the only boy at home, has just returned from a glorious outing at the Y. M. C. A. Pine Flats Camp.

"BOOK" SYSTEM FOR TRAFFIC VIOLATORS

Too much "juggling" of tags affixed to automobiles in Los Angeles to notify owners of their violation of the traffic ordinance governing speeding has led Chief of Police Jones to change over to the "book" system.

In place of using a tag in future Los Angeles officers will make a notation of the offense in a triplicate sheet book. One sheet will be given to the party arrested; another will be forwarded to the police court and the third will be retained in the book for record.

CORNELL WOMEN IN 'ADAMLESS EDEN'

Graduates "Man" Paradise In Missouri and Are Doing General Farm Work

By KENT WATSON,
International News Service Staff Correspondent

DE SOTO, Mo., July 27.—The "Adamless Eden," fifty-five acres in area, has been created near here. "Manned" entirely by Miss Alice L. Peck, of Catavia, New York, and Miss Anne P. Fisher, of St. Louis, Cedarbrow Farm is becoming famous throughout the great Southwest.

The novel idea of having an utterly "manless" farm was born at Cornell, of which university the owners of the place are graduates. The science of farming is bringing dividends with good health, both Miss Peck and Miss Fisher declare.

Out over their vast expanse of unpolluted air, the two women look with pleasure upon growing crops that yield up young fortunes each year. Located in a valley at the foot of the Ozarks, the "Adamless Eden" is one of the most fruitful sections of Missouri.

Berries and fruit especially thrive in the soil of the Ozarks. Money gained from such crops, the two young women have proven to pioneer farmers of the section, rolls up a larger bank account than would ordinary crops.

Miss Peck, a trained horticulturist, is the "man" of the place. She supervises the work of growing the crops, while Miss Fisher, a specialist in domestic science, does the canning of jams and jellies that bring shekels rolling into the coffers of Cedarbrow.

Ten acres of the little farm are given over to the growing of fruits and beerries, eighteen acres of woodland, with fifteen sowed in oats and corn. The remaining twelve comprise pasture and a yard for the farmhouse.

A small dairy is the pride of Miss Peck. There hold forth denizens of tested purebred Jersey stock.

The care of the poultry yard falls to Miss Fisher, who permits nothing but purebred Barred Rock pullets and roosters to peck food from the gravelly pen in which they live and produce.

While Miss Peck has been busy, during two years of residence on the farm, in influencing De Soto farmers to introduce modern methods into their farm work, Miss Fisher has shown housewives the latest and most modern methods of canning and drying vegetables and fruits. Diversity always is preached by the women.

The detail of farm labor is performed by the two young women attired in army trousers and regulation shirts. After the chores of the day have been completed, Misses Peck and Fisher take "Elijah" and go for a ride. "Elijah" is the Ford car.

Nature is the hallmark of good health is the philosophy of the "lady farmers." They serve their meals under the canopy of heaven and sleep on the front porch throughout the year.

"Joy comes from healthful work," declares Miss Peck. "There is no lethargy here next to nature. My health was poor when I decided that I would live longer on a farm. Nothing succeeds like profiting in health."

Unslacked lime spread over the walls of a damp cellar will prevent the mouldy smell which is usually there.

GUINEA PIG FARM ON GLENDALE LOT

Five hundred and fifty guinea pigs in a bunch, all of variegated colors, black, brown, white, yellow and nondescript, with their peculiar whistling cry, snugly housed in a sort of Swiss chalet building on the back of a 200-foot lot—this is the novel sight to be witnessed any day at 219 West Lomita avenue. Although "pigs is pigs," guinea pigs are not, for they are not eatable, but thousands of them are used by doctors and scientists in experiments designed to make the treatment of disease more easily brought about. They are not subjects for vivisection but are inoculated with certain diseases and experimental treatment given them to discern its effects. Should the treatment prove to be the right one, their lives are saved, but should it be wrong their deaths may prevent the death of some human patient through avoidance of the treatment that was unavailing.

The standard food of these little animals is green alfalfa, grass clippings and pure bran.

A Big Flag FREE

HONOR THE FLAG

The Glendale Daily Press struck a responsive chord in its offer of a beautiful bunting flag with each yearly subscription paid in advance. All we could procure at that time were speedily taken and many applied for the flags after the supply had been exhausted. To satisfy these demands we have ordered a new supply, and these will be given on the same terms as were the first. The Daily Press is not doing this as a money-making proposition, for the flags are quite costly and the paper is worth every cent asked for it, but we desire to do our bit toward stimulating patriotism and reverence for the flag. We hope to eventually see "Old Glory" displayed in every Glendale home, and we want to do our part toward bringing this about.

Fill out the coupon below and bring it or mail it to the office, accompanied with $5 for a year's advance subscription, and a flag will be laid away for you. If in arrears, pay to date and a year in advance to get the flag.

WEDNESDAY, JULY 27, 1921

THOUGHT FOR TODAY—Tolerance is not the special privilege of innocence—forgiveness of others, often, is only the aftermath of our own indiscretions.

A CONGRESSIONAL RECESS

Congress, some time ago, considered a vacation, but the majority of the members voted in favor in remaining in Washington throughout the summer and spending their while debating time-honored questions. A very pertinent thought in this connection is suggested by the always party-loyal Chicago Tribune, which says, "Congress needs a vacation. Observation of its activities ever since it was called into special session by President Harding to take up tax and tariff revision leads to the conclusion that senators and representatives alike have lost touch with their constituencies and are failing to reflect or act upon public opinion."

It is true that a congressman' duties extend beyond his stay at the national capital. It is an important part of his duty to mingle with the folks at home, to learn what they want and what they need. With the exception of forcing President Harding to call a disarmament conference, the present congress has really not done a single thing which could not have waited over until the next regular session. It has not revised taxes nor written a sensible tariff. The peace resolution amounts to nothing.

There is common sense in the Tribune's words. When congress votes for a navy program immensely greater than this country's war program at a time when all Europe was in flames it becomes evident that congress does not know what the people at home are thinking. The first drafts of the proposed tariff, likewise, show a lamentable ignorance of sentiment at home. Our imports have fallen off from $5,238,352,000 in the year ending June 30, 1920, to $3,666,769,000 in the year ending June 30, 1921. What hurry need there be about further cutting down imports?

There is an indication that congress will not turn its immediate attention to tax revision instead of the tariff. But even that could be undertaken with greater assurance if congress knew something of the needs and conditions at home, among the farmers, the business men and the workers. Congress at the present time is working on the inspiration of the lobbyists, not the constituencies. Anyone who will take the trouble to read the Fordney tariff bill will be convinced of this.

SELFISHNESS

You have got to expect to deny yourself pleasure if you would give real pleasure to those around you.

But the things you go without for the benefit of others should react to your ultimate gain.

The thought of being able to add to the enjoyment of someone else is enough of joy if you have a truly benevolent heart.

Pleasure you enjoy at the expense of others should not be accepted or sought by you.

If you will think it over you will see that you are not justified in taking what you deny another.

Most of us are selfish—cruelly selfish at times.

As long as we get what we want we give very litttle consideration to those in whom we should be most interested.

In many homes the husband and the wife do not enjoy the same things, and one or the other goes ahead and does what affords him or her the most good time with no regard for the other's wishes.

Difference of opinion as to what is enjoyment should not give one or the other the right to think solely of self.

GRAVE AND GAY

RELATIVITY

Twinkle, twinkle, little star,
How I wonder where you are;
High above I see you shine,
But, according to Einstein,
You are not where you pretend,
You are just around the bend;
And your sweet seductive ray
Has been leading men astray
All these years—O little star,
Don't you know how bad you are?

ENJOYING IT

"Do you go out a great deal?"

"We never go anywhere. We pay such high rent we have to stay in to get the worth of our money."

TOOK ADVANTAGE OF PRECEDENT

Junior was in the habit of coming to the table with a dirty face and, of course, had to be sent away. One time his mother nearly losing patience, said: "Junior, why do you persist in coming to the table without washing? You know I always send you away." "Well," said Junior, meekly, "once you forgot."

THE REASON

Niece Nippon: "Have you any real reasons for not agreeing to a naval holiday?" Uncle Sam: "Yap!"

THE BOSTON WAY

He was visiting his friend's house in Boston. He found his host's son one afternoon settled in the library with a sheet of paper before him and a pencil. "Well, Albert," he asked genially, "are you drawing an engine?" Slowly the child looked up, and gloomily he replied, "It would take a very strong boy to draw an engine, but I am making a picture of a locomotive."

GOOD BUSINESS DEFINED

During a campaign preceeding the election of a Missouri Congressman it was suggested that, since he posed as a good business man, he might be willing to tell just what a good business man is.

"That's easy," he explained. "A good business man is one who can buy goods from a Scotchman and sell them to a Jew—at a profit!"

NO OVERHEAD EXPENSE

There was once upon a time a man who did not approve of Foreign Missions. One Sunday at church an usher approached him and held out the offering plate.

"I never give to missions," whispered the man.

"Then take something off the plate, sir," promptly whispered the usher; "this money is for the heathen, and you are entitled to some of it."

A FAMOUS POST

A verger was showing a visitor round a church. The passage through the wooden altar-rail was flanked by two stout posts with particularly large and round wooden knobs on top. Nothing interesting about them. No one would think of photographing one of them. But he would after hearing the verger. "A little while ago, sir," he said, "we had a very short-sighted bishop, here, sir, and he confirmed one of them knobs."

WOMAN'S COZY CORNER

By JOSEPHINE FRANCE

Fun on a Mock Motor Run

Recently I attended a party where people of various ages were invited to spend the evening, and when we discovered the variety of ages represented we wondered what the mode of entertainment would be. When the last guest had arrived we were given little pamphlets made of ordinary notepaper, each with a gay-colored cover, tied through the fold with ribbon. On the inside we found a typewritten story entitled, "The Motor Love Story." There were blank spaces at intervals in the story which were to be filled with the names of different articles pertaining to an automobile, and these words completed the story. The story is given below, and the words in bold are the ones that were left out:

He thought her a maid most wonder**our** fair.
She wore a pink **hood** on her bright yellow hair.
A **muffer** around her fair throat she did twine.
That she was a beauty he could but opine.
And each little **shoe** was so dainty and trim,
Like dear Cinderella she just seemed to him.
To gaze on her face was to see and admire;
He thought of her beauty he never could **tire.**
But if he could win her? Oh, that was the **rub!**
She came from the erudite city, the **Hub;**
While he in New York saw the first light of day,
And lived near the **Battery,** down by the bay.
His deep love to **exhaust,** he tried all in vain.
It would **clutch** at his heart till it gave him a pain.
Quoth he: "I can tell you it is not a joke!"
And then of his ardent affection he spoke:
"Oh, have you for me of hope just a dim **spark?**
Ah! then I'd be happy I can but remark.
But if you refuse me, ah, then it is clear
My heart it would weigh quite a **tonneau,** my dear.
Indeed, I am pining, sweetheart, for your sake,
And if you refuse me, my heart it must **brake."**
The maid to his pleadings did gracefully yield.
Said she: "You may be my protector and **shield,**
At some future day I will be your dear wife;
Together we gladly will motor through life."

Half an hour was allowed for the contest, when each guest was asked to exchange with the person on his left and grade the story while the hostess read the story correctly. The lady who had the most correct story was given an automobile veil; the gentleman, a pair of goggles.

A second guessing game was entitled "U-Auto-No," and the questions asked were answered by the names of twenty-seven different makes of motor cars.

Immediately after the contest an automobile horn called very vociferously from the dining room. The refreshments consisted of the usual picnic things. Each plate had on it a toy horn which added to the merriment of the occasion.

STUDIO NEWS AND GOSSIP

The story of Daniel Craig's amazing adventures, in prison and out, is told in "Three Sevens," by Perley Poore Sheehan, a Vitagraph production directed by Chester Bennet. Antonio Moreno, the dashing and daring young star, plays the leading role.

Carmel Myers' latest Universal feature, filmed under the title of "The Black Cap," will hereafter be known as "A Daughter of the Law."

Violet Mersereau will play the lead in the big feature, "Nero," which is to be made in Italy for the Fox corporation.

"Miss duPont" is the screen name of Universal's newest star. Her first picture is known as "The White Peacock Feather." Jack Perrin is playing opposite.

For the production of "Custer's Last Fight," one of the episodes in Marshall Neilan's spectacular film, "Bob Hampton of Placer," the producer used a technical staff of fifty seven persons. This is one of the largest organizations of this kind ever employed on one film.

Humans alone are not entirely responsible for the success of "One Man in a Million." The author fully realizing the value of animals as a medium of conveying ideas, has enlisted the aid of a very funny parrot and a score or more of the most frolicsome dogs you have ever seen. You'll have to see the picture to realize just how wise these "dumb" actors are.

Julian Eltinge, film star and Orpheum headliner, is recovering from an appendicitis attack at his home in Los Angeles.

William de Mille has completed the filming of "After the Show," featuring Lila Lee, Jack Holt and Charles Ogle.

Mary McAvoy, Realart star, is a knitting devotee.

Louise Glaum will pass the summer in cool New York City.

Ann Forrest has quit the Lasky fold and is expected to "free lance."

Buster Keaton's spouse, Natalie Talmadge, is writing comedy scenarios for her husband.

POPULAR SCIENCE

Though the most impressing and one of the most common of meteorological sound; thunder is much misunderstood. It is clearly due in some way to lightning, and in the Journal of the Franklin institute Dr. W. J. Humphreys explains that sudden and intense heating and molecular dissociation along the path of the discharge produce abrupt expansion, simulating a violent explosion, and this sets up a compression wave traveling outward like any other sound wave. The sound is prolonged chiefly by the length of the discharge path away from the observer,—occasionally five miles with a thunder duration of 24 seconds—though echo may have much effect. The great variations in the rumbling are very largely due to crookedness of the path which starts from many equally distant points; but interference may also result from a rapid succession of discharges, and sometimes from deflection by mountains and other objects. Thunder is seldom heard more than 15 miles. Canon firing is often heard farther, but the sound is more concentrated, and the air is stiller and more dense.

Overheating from the application of brakes in descending long grades has been found by the U. S. Bureau of Standards to be the most common causes of the breaking of car wheels. In tests made, only 12 out of 28 wheels were able to withstand the strains from the unequal expansion between the overheated outer part of the wheel and the relatively cool central part.

Galactan, a water-soluble gum readily convertible into music acid, has been found to exist in large quantity in the western larch, and the investigation by the Forest Products laboratory is to result in a new Montana industry. The music acid can be used in place of tartaric acid in baking powder, and is a substitute for citric acid for such purposes as artificial lemonade.

In the centrifugal casting of pipes by the patented process of L. Cameron of New York, the metal is first melted and cast into a bar, which is cut to the weight required for the pipe casting. This is placed in the mold while still hot. The mold is built up of hard-baked clay rings, three-fourth inch to four inches thick, and two to three inches long, lined with graphite tubes one-half to one inch thick and eighteen to twenty-four inches long and is reinforced or strengthened by an outer steel casing one-half to one inch thick. Graphite blocks, with insulated copper leads, close the ends. The filled mold is placed on a rack, electrical connection is made to the copper terminals, and the current is passed for the time necessary to insure complete melting. The mold is then transferred to a spinning machine. In this it is rotated at a speed varying with the diameter of the tube to be formed and the thickness of its wall, the spinning being continued until the metal solidifies—the time usually ranging from sixty to ninety seconds. Being allowed to cool to air temperature, the pipe contracts sufficiently for easy removal. Castings made in this way are dense and free from gases; and the process is claimed to be adapted for pipes or tubes of wrought iron, Monel metal, or even steel for high pressure, super-heated steam.

STEALING OF AUTOS REGULAR INDUSTRY

Auto Club's Theft Bureau Says Record Will Be Broken This Year

That the present year will set a record in the number of autos stolen in Southern California counties, is indicated by figures just issued through the theft bureau of the Automobile Club of Southern California.

Gross carelessness on the part of auto owners themselves is considered to be the main reason for the success of auto thief gangs operating in this part of the country.

This carelessness includes kindergarten ignorance on the part of motorists regarding such simple information as the state license numbers on their car, motor number and even simple descriptions of the paint and general characteristics of their property.

It is pointed out in the auto club's report that while 1635 automobiles were stolen in the southern counties and particularly in Los Angeles, in 1920, there have been 1259 cars stolen up to the present time this year, since January 1. According to detectives employed by the club, this figure indicates that the record of 1921 will shatter that of last year.

The value of cars stolen during 1920 in Southern California, by actual statistics, is placed at $1,115,970.

Beginning next week, printed cards will be issued by the club's theft bureau, free of charge, to all auto owners requesting them, on which vital information is to be tabulated to be used by the detectives in case the car thus recorded is stolen. Every motorist is requested to avail himself of the privilege of so recording their car and thus establishing a permanent record for finding it, should it be stolen.

LEADERS OF LABOR SHARE SALARIES WITH MINERS

More Than 150,000 Members Are Now in Ranks of the Unemployed

(By International News Service)

INDIANAPOLIS, July 27.—According to an announcement in the United Mine Workers' Journal because of the widespread unemployment among the coal miners of the United States and the distress existing because of this fact the international officials, members of the international executive broad, international organizers and field workers of the United Mine Workers of America have voluteered to contribute their entire salaries for the month of July to the organization in order, as they explain, that they may share the burden of these hardships with membership of the union. More than one hundred men officially connected with the union will make this sacrifice. The contribution of John L. Lewis, international president, will be $666, and Philip Murray, vice-president, and William Green, secretary-treasurer, will each contribute $583. The salaries of the others range below these amounts.

It is estimated at the union head quarters that not less than 150,000 members of the union are out of work, while many thousands more are employed only from one to three days a week, all of this unemployment being due to the slack demand for coal. Hundreds of mines throughout the country are closed down, while others are working short time.

The United Mine Workers' Journal says: "It has long been the cry of some people that, regardless of whether the membership worked or not the salaries of the officers went on as usual. Such talk is indulged in solely for the purpose of creating distrust of the officers in the minds of the membership. Their voluntary action, however, in contriubting their entire salaries for July should go far to dissipate such impression and prove that the officials feel a deep, sincere interest in the well-being of the rank and file of the membership."

This is the first time such action ever was taken by officials of the international union.

Royal Neighbors Camp

A local camp of the Royal Neighbors of America, auxiliary to the Modern Woodmen of America, is being organized by Mrs. Josephine Hedge, deputy.

The society operates in forty-five states and provinces, in which there are more than 7100 local camps, and is operated entirely by women.

Several members of the society belonging to eastern camps and now living in Glendale, have signfied their intention of transferring to the local camp.

Mrs. Hedge is at the Hotel Victor and will be here for a few days' stay.

STRENUOUS LIFE OF BEE FARMERS

F. B. Buchanan Completing the Moving of Colonies to Bean Fields

F. B. Buchanan, of 242 North Orange street, bee man, says this has been a very hard season for owners of apiaries. The late rains came too late to relieve the situation with regard to the honey plants. He has about 600 colonies, and while they are getting along all right, their welfare has meant strenuous work for him, because it has been necessary to move his bees more often than usual. His situation is about like that of the cattle raiser on the plains, who must be continually looking for pasturage.

Every night last week he was busy moving bees. He would make his start at 6 p. m. and work until 1 a. m., go to bed for an hour or two and take another load at 4 a. m. He now has but one truck load to be moved. The bean fields afford the best honey pasturage now, and he has scattered his colonies, carrying some to the San Fernando valley fields, some to Ventura and some to Santa Ana.

Palace Grand

A beautiful shop girl is accused of a crime she did not commit. On her way to jail she is rescued by a man, who afterward installs himself as her guardian, lavishing money and pretty clothes upon her. She meets and falls in love with a young millionaire. Then suddenly she discovers that her supposed guardian is a well known crook and that her alleged crime and subesquent meeting with the millionaire was all "framed," so that the crook might use her to extort money from her rich admirer.

That is th situation in Maurice Tourneur's latest Paramount picture, "The Bait," in which Hope Hampton will play the leading role at the Palace Grand today. Romance and thrills are skillfully blended in the story, which has been screened with all of Tourneur's genius for producing colorful effects.

"The Bait" was originally a play by Sidney Toler and was adapted to the screen by John Gilbert.

Charley Chaplin is here again. America's premier screen comedian will stage a riot of laughter in "Easy Street" and added attraction to today's bill. The film is full of laughs from start to finish.

Glendale Theatre

J. L. Frothingham presents Bessie Barriscale at the Glendale Theatre, today and tomorrow in "The Breaking Point," a W. W. Hodkinson release, a drama of modern society which was adapted for the screen by H. H. Van Loan from the story, "The Living Child," by Mary Lerner.

The story deals with one Richard Janeway, a young waster, who marries Ruth Marshal, also young, but unlike Janeway, with the high ideals and aspirations that rightfully belong to youth. Before the honeymoon is over, Dick tires of his wife and soon returns to the old life of "wine, woman and song."

When their baby is born, a little girl, Ruth lavishes all the love of her starved life upon her. After things have gone from bad to worse for several years Richard plans, to elope with an old flame of his and take the child with him. Half-crazed at the prospect of what the baby's life with such a pair will be, Ruth threatens to shoot the child. In the scuffle which ensues Janeway is shot and mortally wounded.

The old family doctor and the mother of the dead man, knowing what a profligate he was and loving the little woman who has spent such weary and unhappy years with him, make it appear to the authorities that the fellow died by his own hand, and the two women and the little girl are left to face a better and a brighter future together.

Miss Barriscale is supported by an excellent cast, which includes Walter McGrail, Ethel Grey Terry, Pat O'Malley, Eugenia Besserer, Joseph J. Dowling, Lydia Knott, Wilfred Lucas and others.

Eight hundred and thirty-three thousand divorces have been granted in this country during the past twenty years.

PERSONAL MENTION

Mrs. Dentry of 540 Vine street has gone to the Glendale sanitarium for special treatment.

* * *

Mr. and Mrs. L. H. Fuller of South Mariposa street left this morning for a week's outing at San Diego.

* * *

Miss Marcia Raymond, of Tujunga, who is planning to make her home in Glendale, was here yesterday looking for a suitable house into which she might move. Miss Raymond is the sister of Dr. R. Raymond, formerly of the South Baptist church.

* * *

Dr. and Mrs. C. L. Marlenee returned Sunday night from a week-end visit with friends in Highlands. Dr. Lewis, who is in charge of the Marlenee branch office in San Bernardino, and Mrs. Lewis, were dinner guests at the Marlenee home Tuesday evening.

* * *

Friends of Mr. and Mrs. Charles Hutchinson of North Orange street, report letters indicating that they are having a delightful camp outing in the Yosemite valley. Mrs. Hutchinson felt the need of a rest after strenuous work as president of the Tuesday Afternoon club and will probably remain in the valley until the first of September.

* * *

Miss Anne Thompson, the well-known pianiste of Los Angeles, and her mother, who is here from Arden, Okla., were luncheon guests of Mr. and Mrs. J. H. Franklin and family a few days since. Today the Franklins are entertaining Judge Dean Franklin and his sister, Mrs. George G. Gaugh, of Kansas City.

* * *

Mrs. O. W. Esselman of 1100 South Glendale avenue is today welcoming an old school chum in Miss Iola Barnes of Brooklyn, New York, who has arrived after a leisurely transcontinental trip via the Canadian Pacific. On the way south she visited the Yosemite Valley. She will be the guest of Mrs. Esselman for several weeks.

Missionary Social

A missionary social and lawn party was held at the home of S. R. Frazee, 211 West Milford street, last night at which more than fifty guests were present. Funds raised from the sale of refreshments at the affair will be turned over to the Congregational mission fund.

MISS BARNES GIVES SMART LUNCHEON

E. K. Barnes Family About To Move To Los Angeles To Be Near University

Miss Harriet Barnes, daughter of Mr. and Mrs. E. K. Barnes of 1303 North Brand boulevard, entertained with a luncheon Tuesday, in honor of Miss Hester Norton and Miss Elizabeth Norton, who are returning to Illinois in about two weeks. The Nortons are the purchasers of the Barnes residence and expect to return to Glendale to occupy it about Christmas time.

Other guests for whom covers were laid were Miss Carolyn Norton and Miss Elizabeth Stumm, of Los Angeles; Miss Luella Lockwood and Miss Jean Dennis, of Orange; Miss Dorothy Roberts, of Long Beach; Misses Mary Logan and Pearl Pollock, of Glendale.

A pink and white color scheme was carried out in the floral decorations and appointments, and Mrs. Barnes was assisted by Mrs. Will Norton.

Mr. and Mrs. Barnes are leaving Glendale that they may situate themselves more conveniently with regard to the University of Southern California, where their son Mansford and daughter Harriet are taking courses. They have bought a lot in Windsor square upon which they will build very soon. Miss Barnes is specializing in dramatic work and expects to complete her course in about two weeks. Mansford will specialize in dentistry and will be graduated in about four years.

There has been no diminution in the attachment Mr. and Mrs. Barnes have always had for Glendale, but they feel they should, under the circumstances, be closer to the university. Both are planning to come back here to live, and in the meantime will keep in close touch with their Glendale friends.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat if You Feel Backachy or Have Bladder Trouble

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste, get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

PLANS OF ALL-YEAR CLUB APPROVED BY CHAMBER

Commerce Directors Pledge Support of Glendale to Campaign

Endorsing the All Year Club's campaign to boost Southern California, directors of Glendale Chamber of Commerce yesterday went on record, through the expression of a unanimous vote, to take steps toward lending their support to the nationwide publicity movement that will advertise this section of the state.

Though the publicity campaign was begun only a week ago, results show that advertisements in 41 papers representing 33 cities of the south, middle west and south west have brought more than 500 inquiries to the offices of the club in Los Angeles. These letters contained questions in regard to the climate, business and living conditions in Southern California.

Believing that the southern part of the state enjoys a margin of superiority over any other part of the United States in that it possesses "all year round" advantages, the All Year Club, through the efforts of Los Angeles business men and the chamber of commerce of that city, was organized to acquaint the entire country of these merits with a view to inducing tourists and residents to come here and to promote a greater amount of trade.

Speaking before the directors of the chamber of commerce here yesterday, Daniel H. Jones, a representative of the All Year Club, declared that Los Angeles County was one of two sections of the United States where business was termed as "good" by commercial statisticians. He pointed out that this county has a greater population than 14 different states and that its assessed valuation exceeds that of 26 different states.

"There is no question but what Southern California possesses all year round advantages," said Mr. Jones. "The impression has been prevalent that our part of the state is a two season place. Now if it has developed to its present tremendous extent while this impression has been accepted what will it do when the country realizes that we are an all year round locality? The possibilities of our development are unlimited."

The plan of advertising campaign as outlined by Mr. Jones provides for a fund of $300,000 to be raised yearly for three successive years. Of this Los Angeles proposes to raise $200,000 yearly and the balance of Southern California has been asked to provide $100,000. Chambers of commerce and business men's clubs have been asked to lend their support to the movement and already numerous smaller cities about Los Angeles have pledged varying amounts.

Lauding past cooperative performances of Glendale, Mr. Jones declared the Club was particularly anxious that this city get behind the advertising campaign feeling certain that the enthusiastic support thus rendered would go far toward assuring the success of the project.

A committee has been appointed by the local chamber to determine upon a course of procedure to be followed in aiding the All Year Club.

WATER RESERVOIRS OF CITY FILLING

Both of the city's new reservoirs are now partly filled with water, but only that in the Grand View district is being used. The big booster pump forces the water into the reservoirs from the wells at San Fernando road and Grand View avenue, and a smaller booster pump lifts the water from there to the reservoir on L. C. Brand's property, from which all of that district above Sixth street is served. When the new mains and laterals which the recent bond issue voted, are laid, then every resident of the district will have perfect service. The new reservoir is not yet covered over, as that was not in the builder's contract, but the city will do that with its own force of men.

The big reservoir at the head of Glendale avenue is now being covered by the contractor. It is being filled gradually, but the water in it will not be used until it is necessary to do so. The problem of a sufficient water supply for Glendale is now solved for years to come, in the opinion of City Manager Watson.

The voice is an almost infallible sign to an expert of the state of your health.

The various currents of the North Sea are now being tracked by means of sealed bottles.

THIS CONTRACTOR ACME OF OPTIMISM

Harry Betz Says He Expects Building Operations in City to Continue

Harry E. Betz, the contractor, who lives at 424 North Kenwood, has sent his wife and two children to Catalina to have a good time, but says there is no chance for him to escape, unless he absolutely runs away from his work. He is improving the opportunity afforded by their absence to make improvements; is enlarging his garage and has called in painters and carpenters to make changes and renovations in the house.

"How lucky for them to escape the mess!" some one remarked to him. "Mess is a good word for it all right," he admitted, "but it will be nice when it is done."

He is finishing about half a dozen big jobs on which he has been engaged, and some small ones, including a tile double garage for Irving E. Oliver at Doran and Jackson street. The garage is a preliminary to an attractive tile residence which Mr. Oliver will soon begin. Mr. Betz has also finished his work on the new home of Mr. and Mrs. Harry White at the northeast corner of Jackson and Doran, regarded as one of the finest homes in Glendale. Another job on which his part of the work is done is the big Ford Garage building 95x150 feet at the corner of Orange and Colorado of which Jesse Smith will take possession about the first of next month.

Store building has slowed down a bit, he says, but he expects it to be resumed as strongly as ever in the course of a few weeks, because there are constant inquiries for stores on the part of outsiders looking for locations. He looks for the rental of all store rooms recently completed within the next three weeks. He states that the apartments in the Julius Kranz building on the corner of California and Brand, have all been leased.

Classified Ads under this heading will serve your needs.

Press Want Ads are bringing wonderful results

Positions are being filled, houses rented, property sold with unfailing regularity.

Use these busy little workers to fill those wants which daily present themselves.

The cost is small—the results are big—Just call Glendale 97—Want Ad Dept. An experienced, courteous want ad taker will assist you with the wording of your ad.
